

LC COSMOS  
**SHMG**  
**EQUIPMENT**  
**(CANADA)**  
**CORPORATION**

Operating since 2003, we have the experience and technical expertise you need to provide quality you can trust every time.

### **Service**

We are your one-stop-shop for steel plate products. With yearly output of 50+ Million metric tons, we provide full spectrum of services including supply, fabrication, delivery logistics.

### **Knowledge**

Our engineering team have been learning and embracing new process and technologies. With extremely knowledgeable and skillful team of engineers, machine operators, QA/QC support and inspection, we are equipped to deliver the jobs

### **Resources Availability**

Materials shortages can be costly for everyone. Our factory has been working with the largest foundries in China for 20+ years. Access to raw materials will provide you with availability when you need the most

We invite you to reach out to us for your project solutions

## **STANDARDS AND SPECIFICATIONS**

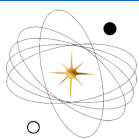

- ASTM A36
  - ASTM A 36 steel is a widely accepted general purpose structural quality steel offering a constant 36 ksi min. yield point for all thicknesses of material. It is widely used in the construction of buildings, bridges and other structures by means of welding, bolting or riveting. This steel is useful because of its wide availability.
- ASTM A572 GR 50
  - ASTM A 572 GR 50 is a low-alloy high-strength structural steel, offering 50 ksi min. yield strength. Due to the alloy elements of steel plates its atmospheric corrosion resistance is increased. It is widely used in construction, cranes, wind energy, bridges and equipment assemblies.
- SHMG offers a wide selection of material specifications including ASTM/ASME/CSA
- Depends on the application we offer extra services including Normalizing/Annealing/Quenched & Tempered

## **THICKNESS OF STEEL PLATE SUPPLY**

- 8mm to 500mm

## **SERVICES OFFERED**

- Hi- Definition Cutting
- Flame cut
- Plasma cut
- Saw Cut
- Welding
- Detailed fabrication drawings
- Forming, rolling, beveling, flattening, grinding and other value added additional services
- Mill certificate from original foundry
- QA/QC including first article reporting, UT, third party inspection
